MUHAMMED K B

Summary

Currently pursuing MCA at the College of Engineering Trivandrum, with a strong aspiration to transition into a Software Engineer role. Proficient in programming languages such as C, C++, Java, and PHP, with a solid understanding of object-oriented programming concepts. Passionate about problem-solving, innovation, and contributing to dynamic software development projects. Eager to leverage my technical skills and academic foundation to excel in a software engineering career

Education

- **2024 - 2026**
  College of Engineering Trivandrum
  Master of Computer Applications

- **2021 - 2024**
  MES College Marampally
  Bachelor of Computer Applications

- **2019 - 2021**
  MGM HSS Kuruppampady
  Plus Two

Projects

- **Exam Seating Arrangement—**
  ExpressJS, NextJS, Sequelize, MySQL

  I was involved in the creation of a web application that streamlines the seat allocation process for colleges, thus providing examinees with quick access to their assigned seats. Now that it's complete, we plan to incorporate this application into our college system.

- **_Wood Industry Management System-_**
  HTMl PHP MySQL

  The objective of this project is to automate and optimize various business procedures, leading to increased productivity and efficient resource utilization in the wood industry. The proposed system boasts a user-friendly interface, facilitating seamless interaction and streamlined data administration.
